

Protecting Day Lotion

Short Summary:

Start your day by arming your face against environmental aggressors and daily sun exposure. Our skin is under constant attack from environmental factors; be it sun, wind, pollution, air conditioning, the list goes on, but Forever has the answer with our new and improved Forever Protecting Day Lotion.

Long Summary:

Shield and nourish your skin with a blend of skin-conditioning ingredients and natural mineral zinc oxide.

Our new formula is suitable for all skin types and offers the added bonus of SPF20 to protect from UV rays to help prevent the signs of premature ageing. Featuring a blend of oils that includes brassica napus, castor and desert date, Forever's Protecting Day Lotion is naturally rich in antioxidants. Castor and desert date oils combine with sunflower oil, which all contain high amounts of essential fatty acids to give your skin a soft, smooth texture.

This new formula also contains linoleic, oleic and palmitic acids, which are essential fatty acids, as well as naturally derived non-nano zinc that includes an advanced coating technology to shield your skin without the tell-tale white residue, for coverage that goes on easy and leaves you looking flawless. When you need protection that's loaded with skin enhancing benefits, choose Forever's Protecting Day Lotion.

CODE:

645

QUANTITY:

60ml
