Description and Purpose:

- + By combining the best of nature with pure aloe vera from our own fields, Forever has created a liquid soap that leaves skin feeling soft and clean. Aloe soothes and softens, while argan oil delivers vitamin E and natural fatty acids to condition and promote smooth skin.
- + This extraordinary ingredient is known as "liquid gold of Morocco" and is carefully harvested from the fruit of the tree.
- + We also boosted the skin enhancing benefits of Aloe Liquid Soap with jojoba esters and cucumber fruit extract to help maintain moisture. The soothing properties combine perfectly with aloe vera to gently cleanse and leave skin feeling smooth and soft. But the benefits don't stop there.
- + Arnica extract has been added to soften the skin and the scent gives a relaxing effect. Top notes of citrus mingle with a backdrop of woody and floral aromas like cinnamon spice, cedar leaf and rose for a fragrance that enhances the feeling of freshness.
- + With a combination of natural oils, extracts and pure aloe vera, Aloe Liquid Soap has just what your skin needs to feel clean, nourished and fresh.
