## Description and Purpose:

- + Help your skin to RETAIN its natural moisture, RESTORE its resilience and RENEW its appearance with *R<sup>3</sup> Factor Skin Defense Creme* – a rich combination of stabilised aloe vera gel, soluble collagen and alpha-hydroxy acids, fortified with vitamins A and E, each vital to healthy skin. Vitamin A helps in the maintenance of healthy skin and is beneficial for many skin conditions.
- + Alpha hydroxy acids (AHAs) come from natural plant sources and are also called fruit acids. Together, these exfoliants loosen dead cells from the skin's surface by dissolving the natural glue-like substances that hold dead skin cells in place. These cells create a barrier to moisturising creams, so getting rid of them means fresher skin cells are exposed in the skin's renewal process. Since it takes 21-28 days for the skin's renewal process to complete a cycle, allow a similar amount of time to realise the full benefits of *R<sup>3</sup> Factor Skin Defense Creme*.
- + Fruit acid creams have been called the most important skincare agents of the decade. By combining AHAs with soothing aloe, *R<sup>3</sup> Factor Skin Defense Creme* provides a first line of defence in fighting the harsh effects of time, helping to preserve your skin's youthful looking appearance.
