## Description and Purpose:

- + Fragrance free.
- + It's estimated that the apple tree was the earliest tree to be cultivated. The juice that flows through this lasting fruit has withstood environmental damage and change for thousands of years. We harnessed two key components of this vitamin-rich fruit: apple extract and apple amino acids.
- + Mild, moisturising and milky, this cleanser uses hypoallergenic coconut fatty acids to suspend oil so that they can be carefully and gently washed from your skin, leaving your face soft to the touch without feeling dry.
- + A key characteristic of youthful skin is being well hydrated and buoyant. This cleanser assists your skin's barrier function to fight against tightness and dryness. Bountiful amounts of linoleic acid and vitamin E, found in sunflower seed oil, support skin's lipids and help break down dirt and debris.
- + Don't just wash away dirt and makeup, help your skin look and feel younger to the touch while laying a strong foundation for the rest of your anti-ageing routine.
